

Members collaborate cross-region to benefit clients

“ Our positive relationship with fellow MGI Worldwide member firm **Revideco AB**, based in Sweden, is a great example of international collaboration

Murray Patt | Founder, Alexander Knight & Co

For UK-based firm Alexander Knight & Co, MGI Worldwide membership has allowed them to provide seamless international service to clients looking for support abroad. Membership has also enabled the firm to collaborate with MGI firms in other countries, providing support for their clients in the UK.

Positive relationships built on trust

In a recent collaboration, MGI Worldwide member firm **Revideco AB**, based in Sweden, reached out to **Alexander Knight & Co** requesting assistance for one of its clients who needed some UK-specific advice relating to a subsidiary in England.

As a result of the introduction by partners at Revideco, Murray Patt and his team at Alexander Knight & Co were able to assist Revideco's client - a Cheshire-based company - with its annual Audit requirements.

Alexander Knight & Co was pleased to have been appointed by the client to undertake this activity and that the relationship has developed positively.

Murray Patt, Founder at Alexander Knight & Co, comments:

"We are delighted to have been referred by our MGI Worldwide colleagues in Sweden. It's a really good example of how likeminded accountants from different jurisdictions can operate effectively and develop strong and trusted relationships through the MGI Worldwide network. We would like to thank the Revideco team. We are looking forward to developing our professional relationship even more in 2024 and beyond."
